DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12-16, 21 and 23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by DE 10043085.

DE 10043085 discloses a fuel injector comprising all the featured elements of the instant invention.

Allowable Subject Matter

3. Claims 17-20 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stier et al, Eichendorf et al and Mueller teach using dampening means for the armature.
